

LUCIE IN THE SKY

"A performance that leaves its audiences with questions is a performance worth watching, and this production will stay with you for some time."

BRISBANE STAGE, May 2023

"Lucie In the Sky is far more than a dance performance. It is an endearing and provocative work of art compelling us to consider either dipping our toes or perhaps even deep diving into the fascinating world of cybernetics."

NOTHING EVER HAPPENS IN BRISBANE, May 2023

"Lucie In the Sky, ambitious in conception and execution, also celebrates the collaborative ethos underpinning Australasian Dance Collective."

DANCE AUSTRALIA, May 2023

"Choreography throughout by Hollingsworth together with the ADC dancers is luscious – rippling from grounded detailed movement on the floor to airborne athleticism. All six dancers are wonderful to watch."

DANCE AUSTRALIA, May 2023

★★★★★ "The work's overall impression is beautiful and meditative. The choreography – devised in collaboration with ADC's artists and, for the drones, with their programmers Verity Studios – is intricate, evocative and entrancing."

LIMELIGHT, May 2023

"The intricate choreography goes from grand to intimate and back again as we are ebbed and flowed through the world-first theatrical experience."

BLUE CURTAINS, May 2023

"...bold, pioneering, and arguably the most ambitious artistic choice ADC has made to date."

FJORD REVIEW, May 2023

"*Lucie In the Sky* sits on a revolutionary precipice that looks out on what will be the future of dance. A future that extends far beyond the physical body. The topic of artificial intelligence and prevalence of technology is a polarising one, yet ADC approached this with careful consideration."

FJORD REVIEW, May 2023

"There are true moments of beauty and connection, particularly when contact is made between dancer and drone."

THEATRE HAUS, May 2023

"An unapologetically dramatic and animatic production exploring new frontiers of technology and the arts."

SCENSTR, May 2023

"Australasian Dance Collective should be commended for their ambitious and innovative approach to integrating AI and dance performance. They demonstrated an exciting willingness to push the boundaries of what's possible on stage, and it's clear that their bold experimentation will continue to pave the way for exciting new developments in the dance world."

ABSOLUTE THEATRE, May 2023
